

Maziar Kianimoghadam Jouneghani

Last Updated: March 2026

NLP / Computational Linguistics Researcher | Turin, Italy

maziar.kianimoghadam@edu.unito.it | maziarkiani.github.io | linkedin.com/in/maziar-kiani

Research Interests

Explainable AI (XAI), In-Context Learning (ICL), Human-in-the-Loop AI (HITL), Information Disorder, Multilingual and Cross-Cultural NLP.

Education

University of Turin

Turin, Italy | Oct 2023 – Present (Expected: Jul 2026)

Master's Degree in Language Technologies and Digital Humanities

Thesis: “Explainable Adaptive Anomaly Detection Systems: A Human-in-the-Loop LLM Framework for Multilingual News Disinformation”

Supervisors: Prof. Viviana Patti (Supervisor), Marco Antonio Stranisci (Co-supervisor)

Research Summary: Conducted a cross-cultural analysis of information disorder by benchmarking baseline LLMs on the multilingual InDor corpus to identify cultural and explainability gaps. Designed a Human-in-the-Loop framework using retrieval-based in-context learning to pair task instructions with culturally matched expert rationales.

Shahrekord University

Shahrekord, Iran | Sep 2013 – Feb 2017

Bachelor's Degree in English Language Translation

Academic Focus: Linguistics and Translation Studies.

Academic and Research Experience

aequa-tech, srl

Turin, Italy

NLP Research Intern

Feb 2025 – Jul 2025

- Collaborated within a 12-member international team on the multilingual InDor corpus, contributing to data collection, annotation, and baseline model benchmarking.

University of Turin (Cognitive Neuroscience Lab)

Turin, Italy

Research Assistant

Sep 2024 – Jun 2025

- Assisted in EEG data collection and protocol management for a neuroaesthetics study evaluating brain responses to natural and artificial visual stimuli.
- Assisted in biometric data collection (ECG, EDA, HRV) for a gamification study analyzing physiological responses during cooperative and competitive problem-solving tasks.
- Analyzed physiological data using AcqKnowledge Data Acquisition and Ledalab.

Publications & Presentations

Accepted / Forthcoming

- Gemelli, S., et al. “Beyond Fake News Detection: A Community-Based Study of the Multicultural Nature of Information Disorder.” *Proceedings of the Fifteenth Language Resources and Evaluation Conference (LREC 2026)*. Co-author: **Jouneghani, M. K.**

Workshop Presentations

- Jouneghani, M. K.** “Culturally Adaptive Explainable LLM Assessment for Multilingual Information Disorder: A Human-in-the-Loop Approach.” *Accepted for presentation at the Information Disorder Workshop (InDor26) at LREC 2026*, Palma de Mallorca, Spain. (Non-archival; ongoing work.)

Under Review

- Piva, H. C., Ashraf, S., **Jouneghani, M. K.**, Longo, A., Damiano, R., Flek, L., Stranisci, M. A. “Conspiracy Frame: A Semiotically-Driven Approach for Conspiracy Theories Detection.” arXiv:2603.21368.
- Jouneghani, M. K.** “MKJ at SemEval-2026 Task 9: A Comparative Study of Generalist, Specialist, and Ensemble Strategies for Multilingual Polarization.” *20th International Workshop on Semantic Evaluation (SemEval-2026)*.

Technical and Research Skills

- Programming and Tools:** Python (data preprocessing, NLP pipeline scripting, evaluation scripts, and research prototyping), Hugging Face Transformers.
- NLP Methodologies:** In-Context Learning (ICL), human-in-the-loop workflows, model evaluation (LLMs and classifiers).
- Data and Linguistic Research:** Multilingual dataset curation, annotation workflows, and linguistic analysis.
- Languages:** English (C2), Persian (Native), Turkish (Native), Italian (A2).

Professional Experience

KiTalent

Turin, Italy

SEO and Digital Marketing Specialist

May 2025 – Aug 2025

- Designed collaborative workflows to embed digital marketing requirements directly into PRDs and PBIs, enabling developers to track optimizations and align with product strategies.
- Managed a complex website migration while preserving search equity and conducted comprehensive on-page and technical audits.

Mana Immigration Services

Toronto, Canada (Remote)

SEO Specialist and Content Strategist

Nov 2022 – Apr 2023

- Re-engineered site architecture and executed a large-scale URL redirect plan to resolve content conflicts and establish clear information hierarchies.

Parsicanada Immigration Services

Vancouver, Canada (Remote)

Content and SEO Specialist

May 2020 – Apr 2022

- Bridged marketing and legal teams to develop and optimize over 100 user-centric content pages, improving content quality, compliance, and organic search performance.
- Managed a complete technical turnaround by resolving critical technical errors and implementing content-first design.
