

Maziar Kianimoghadam Jouneghani

Last Updated: April 2026

NLP / Computational Linguistics Researcher | Turin, Italy

maziar.kianimoghadam@edu.unito.it | maziarkiani.github.io | ORCID | Google Scholar

Research Interests

Explainable AI (XAI), In-Context Learning (ICL), Human-in-the-Loop AI (HITL), Information Disorder, Multilingual and Cross-Cultural NLP.

Education

University of Turin

Turin, Italy | Oct 2023 – Present (Expected: Jul 2026)

Master's Degree in Language Technologies and Digital Humanities

Weighted average: 27.93/30

Thesis: “Explainable Adaptive Anomaly Detection Systems: A Human-in-the-Loop LLM Framework for Multilingual Information Disorder”

Supervisors: Prof. Viviana Patti (Supervisor), Marco Antonio Stranisci (Co-supervisor)

Research Summary: Built on prior benchmarking of baseline LLMs on the multilingual InDor corpus to analyze cross-cultural patterns in information disorder and identify cultural and explainability gaps. Designed a Human-in-the-Loop framework using retrieval-based in-context learning to pair task instructions with culturally matched expert rationales, supporting interpretable and culturally adaptive assessment of multilingual information disorder.

Shahrekord University

Shahrekord, Iran | Sep 2013 – Feb 2017

Bachelor's Degree in English Language Translation

Academic Focus: Linguistics and Translation Studies.

Publications

Accepted / Forthcoming

- Gemelli, S., et al. “Beyond Fake News Detection: A Community-Based Study of the Multicultural Nature of Information Disorder.” To appear in *Proceedings of the Fifteenth Language Resources and Evaluation Conference (LREC 2026)*. Co-author: **Jouneghani, M. K.**
- Jouneghani, M. K.** “MKJ at SemEval-2026 Task 9: A Comparative Study of Generalist, Specialist, and Ensemble Strategies for Multilingual Polarization.” To appear in *Proceedings of the 20th International Workshop on Semantic Evaluation (SemEval-2026)*.
- Jouneghani, M. K.** “Culturally Adaptive Explainable LLM Assessment for Multilingual Information Disorder: A Human-in-the-Loop Approach.” Accepted for presentation at the *Information Disorder Workshop (InDor26) at LREC 2026*, Palma de Mallorca, Spain. [arXiv]

Working Papers

- Piva, H. C., Ashraf, S., **Jouneghani, M. K.**, Longo, A., Damiano, R., Flek, L., Stranisci, M. A. “Conspiracy Frame: A Semiotically-Driven Approach for Conspiracy Theories Detection.” Working paper. Preprint available on [arXiv].

Academic and Research Experience

aequa-tech, srl

NLP Research Intern

Turin, Italy

Feb 2025 – Jul 2025

- Collaborated within a 12-member international team on the multilingual InDor corpus, contributing to data collection, annotation, and baseline model benchmarking.

University of Turin (Department of Psychology)

Research Assistant, BIP (Brain Plasticity and Behavior Changes) Group

Turin, Italy

Sep 2024 – Jun 2025

- Assisted with human-subject experimental sessions across two cognitive studies, contributing to participant recruitment, hardware setup, data collection and preliminary processing of physiological signals (EEG, ECG, EDA, HRV).

Technical and Research Skills

Programming and Tools: Python (data preprocessing, NLP pipeline scripting, evaluation scripts, and research prototyping), Hugging Face Transformers.

NLP Methodologies: In-Context Learning (ICL), human-in-the-loop workflows, model evaluation (LLMs and classifiers).

Data and Linguistic Research: Multilingual dataset curation, annotation workflows, and linguistic analysis.

Languages: English (C2), Persian (Native), Qashqai Turkish (Native), Italian (A2).

Professional Experience

KiTalent

SEO and Digital Marketing Specialist

Turin, Italy

May 2025 – Aug 2025

- Designed collaborative workflows to embed digital marketing requirements directly into PRDs and PBIs, enabling developers to track optimizations and align with product strategies.
- Managed a complex website migration while preserving search equity and conducted comprehensive on-page and technical audits.

Mana Immigration Services

SEO Specialist and Content Strategist

Toronto, Canada (Remote)

Nov 2022 – Apr 2023

- Re-engineered site architecture and executed a large-scale URL redirect plan to resolve content conflicts and establish clear information hierarchies.

Parsicanada Immigration Services

Content and SEO Specialist

Vancouver, Canada (Remote)

May 2020 – Apr 2022

- Bridged marketing and legal teams to develop and optimize over 100 user-centric content pages, improving content quality, compliance, and organic search performance.
- Managed a complete technical turnaround by resolving critical technical errors and implementing content-first design.
